

## Xcelsius® 2008 FEATURE COMPARISON

### Xcelsius – SEE YOUR BUSINESS IN A WHOLE NEW LIGHT

#### Summary

Xcelsius® is dynamic and customizable data visualization software that enables users of different skill levels to create insightful and engaging dashboards from any data source with point-and-click ease. Xcelsius 2008 offers a comprehensive set of features and integration with Crystal Reports® software, and other leading products – making it easier than ever to put the power of relevant intelligent information into the hands of business users.

#### Challenges

- Minimal IT resources
- Lack of access to latest company data
- Complex and static spreadsheets and reports

#### Key Features

To choose the right product for you, refer to the following two tables.

Functionality	Edition
Create live performance dashboards for your team or department from personal and corporate data sources – without writing your own Web services and live-data connection feeds.	Xcelsius Engage Server software
Create live business dashboards and visual models from Microsoft Excel or a single live-data source.	Xcelsius Engage software
Create interactive data presentations from Microsoft Excel spreadsheets.	Xcelsius Present software

Xcelsius offers a comprehensive set of features making it easier than ever to put the power of relevant intelligent information into the hands of business users. Download a free trial or purchase your own copy and start transforming your business today.
